

# BENEFITS

Increase confidence as you train with DOH, DEC, DOS, professionals and ...

- ◆ Gain continuing education for license renewal credits
- ◆ Receive state & local regulatory updates
- ◆ Acquire field reference books
- ◆ Use standardized OTN forms & OTN Design Check List
- ◆ Streamline plan submittals & approvals
- ◆ Learn NY State best industry practices & evaluation skills to avoid failures
- ◆ Produce better septic design solutions
- ◆ Learn alternative design solutions for difficult sites

The New York Onsite Wastewater Treatment Training Network, Inc. (OTN) represents various industry professionals, including specialists from the New York State Department of Environmental Conservation (NYSDEC), the New York State Department of Health (NYSDOH) and the New York State Department of State (NYS DOS), and provides hands-on training to those involved in the onsite industry.

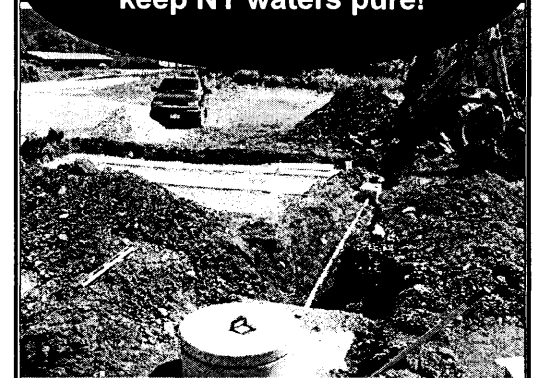

SUNY Delhi administers OTN training throughout New York State through an agreement with the NYSDEC to improve regulatory compliance and water quality.

**Professional Engineers  
Architects, Contractors  
Code Enforcement Officers**

**Earn continuing education  
contact hours and train to  
keep NY waters pure!**

**September 23-24, 2009**  
**Small Scale Onsite Wastewater  
System Design I**

**February 24, 2010**  
**Fundamentals of Onsite  
Wastewater Treatment Systems**

**February 24, 2010**  
**Spoil Analysis for Onsite  
Wastewater Treatment Systems**

**Sponsored by  
SUNY Delhi for  
Columbia County  
Health Department**

## Fundamentals and Soil Analysis for Onsite Wastewater Treatment Systems

**Earn 7.5 hours each day**

### **Feb. 24, 2010 — Fundamentals:**

Provides an introduction to the biology of wastewater treatment, system design, system components, the importance of soil classification, recognizing system failures/trouble shooting, and the technologies available to avoid pollution, and a regulatory update. All individuals with an interest in onsite wastewater treatment will benefit from this course.

**Cost: \$275**

### **Feb. 25, 2010 — Soil Analysis:**

Provides guidelines for making soil evaluations and other field investigations for onsite wastewater treatment systems. Extensive discussions cover soil physical characteristics, test-pit analysis, percolation tests, hydraulic flow in soils, seasonal water tables, terminology and data collection and recording.

**Cost: \$245**

**Time: 8:00 a.m. to 5:00 p.m.**

Includes Continental Breakfast & Lunch

## Small Scale Onsite Wastewater System Design

**Earn 16 contact hours:**

This two-day comprehensive technical course covers the design of conventional, alternative and enhanced residential onsite wastewater treatment systems for new installations. Students are introduced to site evaluation, waste characterization, and design of new residential onsite systems that conform to NYS regulatory requirements. The OTN Site Evaluation Guide provides a structured approach to design elements. Real-world class exercises allow participants to apply important installation concepts. (prerequisite OTN Courses: Fundamentals and Soil Analysis)

**Date: Sept. 23-24, 2009**

**Time: 8:00 a.m. to 5:00 p.m.**

**Cost: \$420**

**\$385** without DOH Ref. Books

Includes Continental Breakfast & Lunch

**Location:**

Columbia County Health Department
