DID YOU KNOW...

Latex Paints can be disposed of by adding kitty litter or sawdust to absorb paint and can be placed in your regular trash. Another option is to open the lid and let the paint dry. Columbia County is researching the feasibility of a recycling collection program.

Motor Oil - New York State requires service stations and automotive retailers to accept used motor oil up to 5 gallons. There may be a minimal charge for the disposal of antifreeze, if the garage has the capability of accepting it.

Automotive Batteries – May be taken to any Columbia County Solid Waste Station free of charge.

Alkaline Batteries – AAA, AA, C, D, 9 Volt & lantern batteries are regular household trash. Currently Columbia County does not have a program in place to accept these items.

Rechargeable Nickel Cadmium Batteries – Call 1-800-Battery for most convenient disposal. Wal*Mart, Radio Shack and Staples participate in recycling collection programs in Columbia County.

Computer Equipment – Computer hardware such as monitors, keyboards and printers are recycled through Columbia County's Solid Waste program. These items may be brought to any Columbia County Solid Waste Station. Please contact the DPW Administrative Office at 828-2737 for further details on fees or if you are a business owner.

Fluorescent Light Bulbs – Please contact the DPW Administrative Office at 828-2737 for proper disposal instructions.

THANK YOU FOR YOUR PARTICIPATION!
