*****PER EPA REGULATIONS:** Section 608 of the Clean Air Act – Freon from the above listed appliances must be removed prior to disposal. The fees for items that have had freon removed from a certified dealer are listed separately. Those dealers that are certified are working in coordination with the County and have fluorescent pink stickers to attach to the appliance as prove the freon has been removed properly. For those residents who will be disposing of the item with the freon still in the unit, a separate charge has been established to cover the fee to remove the freon. In addition, the resident prior to disposal must complete required EPA paperwork. **ITEMS WITH FREON MUST BE TAKEN TO GREENPORT TRANSFER STATION ONLY!**
