COUNTY OF COLUMBIA

REQUEST FOR PROPOSALS FOR AUDITING, ACCOUNTING AND REIMBURSEMENT SERVICES

I. Purpose of Request

Columbia County (County) is requesting proposals for the purpose of retaining qualified, independent, certified public accountants, licensed to practice in the State of New York, to submit written fixed fee proposals to conduct an annual audit of the financial accounts and records of the County, and including all work necessary for compliance with GASB Statement No. 34, in accordance with specifications outlined herein. The audit engagement period shall cover the fiscal years ending December 31, 2022, through December 31, 2024, with an option for two (2) one-year extensions, commencing on the date a contract is signed between the Auditing Firm and the County.

II. Background Information of the County

The County, with a land area of 643 square miles and an estimated population based on the 2010 census of 63,116, is located in east-central New York State and extends from the Hudson River on the west to the Massachusetts border on the east between the Counties of Dutchess and Rensselaer. While major portions of the County are rural and agricultural in character, the County includes the City of Hudson and its surrounding area, which serve as the commercial, industrial and governmental hub of the County. The leading products manufactured in the County include plastics, furniture and fixtures, building products, paper products, and a cement storage plant which is located just south of the City of Hudson. Agricultural products include dairy, poultry, livestock and fruit production. The County is also a haven for passive recreation enthusiasts from the New York City region. The County's 2022 budget is over \$163,200,000.

Form of Government

In New York State, local government services are generally provided by counties, cities, towns and villages. The County provides law enforcement services, economic assistance, and health and nursing services, maintains county roads, co-sponsors a joint community college and provides numerous other services.

The County Board of Supervisors is the main policy making body of the County. It has the power to levy taxes, adopt the County budget, make appropriations and adopt local laws. The County Board of Supervisors is a 23 member body consisting of one Supervisor from each of the 18 towns and one Supervisor from each of the five wards in the City of Hudson. Voting strength of each Supervisor is weighted to reflect population of that constituency. Supervisors are elected at large, within the area they represent, for two or four year terms in November of a given year. Annually, the Board of Supervisors elects a chairman from among its members. The Chairman of the Board of Supervisors is the chief executive officer who also acts on behalf of the County Board of Supervisors.

The County Treasurer, who is elected at large within the County for a four year term, is the chief fiscal officer of the County. The County Treasurer maintains the fiscal records, is responsible for receipt of, depositing of and disbursing of all funds of the County and issuance of bonds and notes of the County.

Other elected administrative officials of the County include the County Clerk, the District Attorney and the Sheriff, all elected to four year terms.

The other administrative officials of the County, including the County Attorney, County Controller/Auditor, Compliance Office, Budget Officer, Clerk of the Board, Deputy Clerk of the Board and the various Commissioners, are appointed by the County Board of Supervisors.

Additional information about the County and its operations can be obtained through its website at www.columbiacountyny.com.

III. Description of Accounting Records

The County maintains its general accounting records in accordance with generally accepted accounting principles for State and Local Governments. All accounting records are maintained using Munis/Tyler software on a hosted web based network. The County presents its financial statements under the reporting model required by the Governmental Accounting Standards Board Statement Number 34, 75 & 84. The County's financial activities are accounted for as follows:

Fund financial statements - groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The County like many other state and local governments uses fund accounting to ensure and demonstrate finance related legal compliance. These funds can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year.

Proprietary funds in the County are enterprise funds. Enterprise funds are used to report the same functions presented as business type activities in the government wide financial statements. The County uses these enterprise funds to account for the Solid Waste, Sewer and Water Funds.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Component units in the County are The Tobacco Asset Securitization Cooperation (CTASC), Industrial Development Agency (IDA) of the Columbia, Columbia County

Soil and Water Conservation District, Columbia Development Leasing Corporation (CDLC), and Columbia Economic Development Corporation (CEDC). Although legally separate, these component units are important because the County is financially accountable for them.

IV. Scope of Services

The audit engagement period shall cover the period beginning with the fiscal year ending December 31, 2022, and ending with fiscal year ending December 31, 2024, and the auditors shall render opinions on the financial statements for the years then ended. The audit will be conducted in accordance with Generally Accepted Auditing Standards, the Single Audit -2 CFR part 200, subpart F, GASB Statement 34, and the Federal and New York State Single Audit Report. The firm chosen must perform testing of the estimated liabilities recorded by the County, including a funding level analysis of the County's Worker's Compensation Self-Insurance Program. A Management Letter shall also be prepared with recommendations for improving internal accounting controls.

At the conclusion of the audit, a senior representative of the accounting firm shall appear before the Controller/Auditor and the Chairman of the County Board of Supervisors, and if requested, the full County Board, to discuss the findings of the resulting audit and recommendations for improving the County's systems of internal control.

Over the course of the audit engagement period, the accounting firm shall, at no additional cost to the County, make qualified staff members available to the County for general consultation regarding financial accounting and reporting issues.

V. Audit Report Requirements

The following reports are required at the completion of each fiscal year of the engagement:

- A. An auditor's opinion whether the general purpose financial statements present fairly the financial position and results of financial operations of the County in accordance with the generally accepted accounting principals for the state and local governments. This opinion is to be expressed on the financial statements at the combined level. The audit must also contain an auditor's opinion as to whether the supplemental schedule of Federal and State Financial Assistance presents fairly the actual grant data in relation to the general purpose financial statements.
- B. An auditor's statement whether an internal control system exists to provide reasonable assurance that all funds are managed in compliance with applicable laws and regulations.

The accounting firm shall conduct an annual audit planning meeting with the Controller/Auditor and Treasurer prior to the beginning of each year's work, and shall conduct an annual exit conference with the Controller/Auditor and Treasurer to review draft copies of the aforementioned reports, prior to issuance in final form. The final reports shall be provided no later than August 31st of each year.
