The percentage exemption that applies to the assessed value of a qualifying property depends on both the nature of the veteran's service and the local law adopted by the taxing jurisdiction. Veterans who were on active duty during a period of war are eligible for a 15% exemption (not to exceed 36,000 (24,000 Hudson) or the product of 36,000 (24,000 Hudson) multiplied by the latest state equalization rate, special equalization rate, or in the case of a special assessing unit, the latest class ratio, whichever is less). An additional exemption of 10% (not to exceed 24,000 (16,000 Hudson) or the product of 24,000 (16,000 Hudson) multiplied by the latest state equalization rate, special equalization rate, or in the case of a special assessing unit, the latest class ratio, whichever is less) is available for those who served in combat zones. Veterans who sustained service-related disabilities, as evidenced by receipt of disability compensation rating from the Veterans Administration or the Department of Defense are eligible for a percentage exemption equal to one-half of their disability rating (not to exceed 120,000 (80,000 Hudson) or the product of 120,000 (80,000 Hudson) multiplied by the latest state equalization rate, special state equalization rate, or in the case of a special assessing unit, the latest class ratio, whichever is less) in addition to the wartime and combat zone exemptions. Veterans who died in service of a service-connected disability are considered to have a disability rating of 100%.
